

COMPANY PROFILE

LOGICA LEARNING LIMITED

Technology. Education. Empowerment.

COMPANY OVERVIEW

Company Name: Logica Learning Limited

Industry: Education Technology (EdTech)

Business Type: Educational Technology Solutions Provider

Head Office: Lusaka, Zambia

Year Established: 2026

Legal Status: Private Limited Company

Logica Learning Limited is an innovative Education Technology (EdTech) company committed to transforming education through the integration of technology, artificial intelligence, and digital learning solutions. The company was established to bridge the gap between traditional learning methods and modern educational technologies, creating engaging, accessible, and effective learning experiences for pupils, students, teachers, schools, and institutions.

Through cutting-edge educational tools, digital platforms, smart learning systems, and AI-powered solutions, Logica Learning empowers learners to achieve academic excellence while equipping educators with the resources necessary to deliver high-quality education.

OUR VISION

To become Africa's leading education technology company, transforming learning through innovative digital solutions that empower learners and educators to achieve their full potential.

OUR MISSION

To simplify learning and improve educational outcomes by leveraging technology, innovation, and artificial intelligence to provide accessible, engaging, and effective educational solutions.

OUR CORE VALUES

Innovation

We continuously develop creative solutions that redefine how learning takes place.

Excellence

We are committed to delivering high-quality educational products and services.

Integrity

We uphold transparency, accountability, and professionalism in all our operations.

Accessibility

We believe every learner deserves access to quality education regardless of location or circumstance.

Empowerment

We empower learners, educators, and institutions through technology-driven solutions.

Lifelong Learning

We promote continuous learning and development for individuals and organizations.
